Cory came out the first time during the pandemic & was extremely professional. I was so impressed that he gave me a detailed breakdown of costs and an aerial view of the roof. We had to postpone at that time but after hail damage in May, we needed to get the roof done. I called Cory and he was out within a couple of days-again so professional and thorough. My roof was completed within a few weeks, gutters, a couple of weeks later and everything looks fantastic! I am so impressed by the crew & gutter installation guy. Each were done in one day. Everything was cleaned up as if they hadn't been there! This company gets a GOLD STAR!! Thanks Cory & crew for making this such a painless experience!

After the 2020 hail storms our insurance company determined we needed a new roof and six new skylights. I called several roofing companies and interviewed staff over the phone. Cory at ERC Construction impressed me the most. As the owner of the company Cory was direct and informative. He did not disparage his competitors, was easy to talk to, and competently walked us through the insurance process. Cory coordinated gutter installation with Leaf Guard making sure we did not lose the original warranty and he was onsite and on the roof during much of the work. "I just want you to be 100% satisfied," was Cory's response to any question we had. We definitely were satisfied and would not hesitate to recommend Cory and ERC Construction.

Job well done! Working with Cory at ERC Construction was flawless. Cory was friendly, direct and patient with my questions. He explained several options. His communication was on par. The job was done quickly and cleanup was as if they were never here. I wish all construction jobs were as easy as this was.

Great job done from ERC construction! Cory and Tim were nice to work with, very helpful with the whole process for first time homeowners and no pressure. I love the way our roof and gutters looks and it is nice to have the replacement completed!

ERC did a great job! I talked to Tim at ERC when I noticed icicles hanging from my soffit and inches of ice on my roof. I knew I needed ice dam removal. ERC scheduled the service within a day and their crew took care of my issues. The crew let me know exactly what the process was and offered suggestions as the service progressed. I was very impressed by the service and especially the clean up after. I would recommend ERC to my family and friends.

Working with Cory and ERC was a great experience from start to finish! Cory was always very prompt and responsive, helpful in answering questions and working with our insurance company, and he made great recommendations on the approach we could take for the replacement of our aging and hail-damaged roof and gutters. The team finished the project very quickly, and did a great job cleaning up when they were done. The roof and gutters he installed for us look fantastic!

Corey was upfront and honest from beginning to end. He explained the entire process including materials, time frame to complete, and insurance process. He followed through with everything he stated in our initial visit. The roof, gutters and downspouts all look great. The whole process was seamless from start to finish.

ERC did a great job. I needed it done fast before our closing and they fit into their schedule and got it done early. Corey worked with our insurance company to get the correct claim amount.
